CURRICULUM

WHAT'S BEING SAID

"This program is absolutely the best way to help students realize the many consequences of pre-marital sexual activity. They respond well to the interactive, non-threatening classroom involvement and to the caring concern of each of the presenters. They also respect the factual information presented as the truths; not as propaganda. I always appreciate the commitment to helping kids and our society, and me as I try to teach abstinence. Thank you all!"

High School Teacher

"I learned a lot about STDs and how to properly commit to a relationship."

9th grade male

"I think the pictures, along with stuff about integrity and purity, are good and should be seen by teens everywhere. This is a program that will be beneficial to many teens."

10th grade female

"I didn't realize the many STDs and their dangers. Excellent seminar. It is the truth the teens need to hear."

Parent

"I didn't really think much of having sex with my boyfriend and we did it a lot. But during this week we haven't, and I've been a lot happier. I don't plan on having sex again until marriage."

11th grade female

*"Learners have different styles and **Relationships Under Construction** varies the type of presentation and the discussion so that they can all be reached. It's hands on and it encourages reflection. AEN's training and material have potential to help thousands of teens choose a healthy and happy future."*

**James Coughlin Ms., Ed., Author of *Facing Reality* and
High School Teacher, Chicago, Illinois**

"Wow! The kids listened! They were impressed by the slides! Very informative info."

High School Teacher

RELATIONSHIPS UNDER CONSTRUCTION

Abstinence 'til marriage & pre-marriage curriculum for grades 6-12

Medically accurate & well documented

Meets the A-H criteria of Title V, Section 510 of the Welfare Reform Act of 1996
