“(I would recommend this program to) any classroom ages 12 and up. High school students (11th & 12th) especially need the relationship part.”

It was good that you didn't just stand up there and say don't have sex.

I really liked this program and I'm thankful that you decided to come to our school. After seeing those pictures of STD's, I have officially decided to be abstinent. Thank you. Because of you I have made a great decision.
