

MORGAN COUNTY STUDENT COMMENTS 2004-05

“A valuable program for any middle school or high school. Very well presented, with students being involved in various skits.”
Teacher, Morgan Jr HS

“The material presented and teachers were excellent. Many concerned mothers in our community suggested ATM and the afore mentioned presenters. The students enjoyed the presentation and presenters. The presenters and the students engaged.”
Teacher, Morgan HS

“(The presenters) do an outstanding job as presenters. They involve everyone in the class and are very knowledgeable on the subject.”
Teacher, Morgan Jr HS

This is a very helpful program. Many of the students in this class have told me they don't want to have sex until they're married. Very informative. Good job.
10th grade female

I really liked the class a lot and would like to do it again.
10th grade male

This class helped me to decide to renew my abstinence.
10th grade female

I learned not to have sex until I'm married, condoms do not work all the time, I learned some comebacks.
7th grade male

There are a lot of consequences when you have sex outside of marriage. Oxytocin is a hormone that connects you to a person.
7th grade female

I learned that having sex before marriage can really mess up your life. I learned about STDs. I also learned some comebacks to some lines.
7th grade female

I learned not to have sex until marriage, the consequences of sex before marriage and what abstinence is.
7th grade male

I learned not to have sex until married, it could ruin your goals, you could get a STD.
7th grade male

I think your program is GREAT! You are good at teaching kids about goals, ways to accomplish those goals, unhealthy and healthy behaviors. You have changed many children's lives because of this wonderful program (including mine) Thanks!
7th grade female

Continue this abstinence program. I believe this program can change some teens' minds for the better. It has educated me on STD's and has directed my views more on my goals.
8th grade female

Renewed abstinence is good, you can get diseases without knowing, it's responsible to save yourself till marriage.
7th grade female

Saving sex till marriage is a good thing not bad. If a girl gets pregnant by you, yours and her goals could be ruined.
7th grade male

Condoms do not protect everything. It's better to wait. There's a lot more than pregnancy to worry about.
7th grade male

You did a very nice job with our class...thanks for coming in! You really taught me to think everything through.
8th grade female

This is a good program I learned a lot.
7th grade male

Your program was great. It was awesome.
