

MORROW COUNTY STUDENT COMMENTS 2004-05

“The material is very valuable now and in the future. The relationship section was informative and they can apply that now. The STD slides are great! Pictures are important when dealing with students. (I would recommend this program to) other schools, any program with youth, also adult programs so they can teach their kids.
Teacher, Northmor HS

It is good to teach people the risks of their activities. I appreciated this presentation. Keep up the good work.
