

SENECA COUNTY STUDENT COMMENTS 2004-05

“The program had a good progression. The kids enjoy the power point presentation concept – good tool for review. Thanks for coming to my classroom.” *Teacher, Fostoria MS*

“We have done this for 2 years now and it has been done very well each year. We will continue to use this program in the future.” *Teacher, Seneca East Jr HS*

“Well organized program, kept the students engaged the entire time. Communication was good and she related well to the students. (I would recommend this program to) other health teachers.” *Teacher, Fostoria HS*

“Very good – good activities.(Guest teacher was) very comfortable- able to relate to students- easy going- fun-able to laugh at the various comments from students. Seemed to be having a good time. Last couple days got into statistics. (Never going to happen to them.) Activities that sent a message were good. (I would recommend this program to) other health programs.” *Teacher, Tiffin Columbian HS*

“Nice job! The demos were good – analogies students could easily relate to.” *Teacher, Tiffin Columbian HS*

“Nice job! They need this info from someone other than a parent or teacher. It helps them feel they can ask questions without hesitations.” *Teacher, Old Fort Jr/Sr HS*

Thanks for showing me better stuff about sex and waiting until marriage. *9th grade male*

I have completely, totally changed my attitude towards sex and all that stuff. Thank you! *9th grade female*

I wish I would have had people like you to talk to me about sex a lot earlier. I thought I knew a lot but now I know after you came I hardly knew anything. Thank you. *9th grade female*

I learned a lot from this, and it definitely makes me think harder about waiting to have sex. *10th grade male*

This was a fun educational program!! All the activities were fun to do!! I'll wait till marriage to have sex, now that I have been a part of this program! *7th grade female*

I never knew that you could get an STD without knowing it. *7th grade female*

I learned a lot of good info. It is good that we have people out there like you who care and are willing to help teens, and get the message across. Thanks! *11th grade female*

This program taught me a lot and I pledge to save sex until marriage. *7th grade female*

I totally changed my mind about remaining abstinent. *7th grade male*

The teacher was nice. She doesn't pressure you to say things. She made me think about staying a virgin. *7th grade female*

I liked the game where you were blindfolded. I liked the way it was taught and presented to us. *7th grade female*

I think this program helped a lot of people. *7th grade male*

I liked the rollercoaster. I learned a lot. *7th grade male*

It was a great learning experience, especially with someone closer to our age. *10th grade male*

Good presentation with good information. Puts a realistic spin on sexual activity. I'm not a fan of the “shock value” technique. Some could easily think that all sex is bad. *11th grade female*

I liked how it was easy to discuss topics with the presenter. *11th grade female*
