I think this is a good program because it teaches things that kids don't know. I learned a lot in here.

I feel that I have learned a lot about sex and the consequences that come from having sex before marriage. It has helped me to think about not having sex.

Student, Strasburg Jr HS

I've been sexually active in the past. I plan to renew my virginity until marriage. This program has helped me turn my life around! Thank you!

This program helped me realize how dangerous sex can be. Safe or not. It was very helpful to me too. Although I would never even think about having sex until marriage, it still helped me understand things better.

Student, Strasburg Jr HS

This program is a great one. You learn many things about what can happen with the choices you make. There are many girls in the world getting pregnant and if even one would hear the lesson, the rate should go down. This program is important.

Student, Strasburg Jr HS
