

VINTON COUNTY STUDENT COMMENTS 2004-05

“I think that the material was very well organized and thought out. The guest speakers were very engaging with the students.”
Teacher, Vinton County HS

“Very good. A lot of factual information plus some real life and personal experiences. Thanks for presenting the program to our students. (I would recommend this program to) HS health classes- any group of teenagers.”
Teacher, Vinton County HS

After this program came to my school I realized that before I probably would not have been able to say “no” to sex but then I realized marriage comes first. So I just wanted to thank you for coming to our school. This program really helped me and I hope it helps a lot of other people too.
10th Grade Female

I really enjoyed your classes. They taught me a lot of things that I had no clue about. I’m glad you choose to spend your time helping others and helping them not to make mistakes they could regret.
10th Grade Female

I thought this was a really good program. It’s the only sex ed class I’ve ever had. I think teens should have one. Since the class I’ve set higher goals and am more aware of the consequences of sex. Thanks!
10th Grade Female

After the past couple days now I see how important it is and how much it really means to me to save sex for marriage!
10th Grade Female

It was a very good presentation and I learned a lot. Thank you very much. *10th Grade Male*

Thank you for speaking to our school. It will help a lot of people in our school. Thanks.
10th Grade Male

I really enjoyed the program. It helped me a lot. The program helped me learn that there’s more STD’s out there then I thought and that I could get them. That it could happen to me. Now I know better.
11th Grade Female

I think your program was very good. It showed teens how you should react to the way things should be. Teens should stay away from sex, because as we’ve seen bad things can happen.
10th Grade Male

I thought the speech helped me a lot because now I know not only to be safe, but I know how to stay safe. Thanks.
11th Grade Female

Thank you for speaking to our school. It will help a lot of people in our school. Thanks.
10th Grade Male

I liked the relationship part of the lessons and I think that they helped me and my relationship with my girlfriend better than the lesson about STDs.
11th grade Male

I think it will make a lot of people wait until marriage to have sex.
